

MID LACHLAN LANDCARE

- Mid Lachlan Landcare** is committed to restoring the environment and improving agricultural sustainability by supporting communities around Canowindra and Cowra in the Central Tablelands region of NSW.
- Growing the Grazing Revolution is a project that actively supports landholder adoption of sustainable and regenerative grazing management practices by providing a flexible learning environment where landholders can support one another and share information.
 - Mid Lachlan Landcare provides natural resource management education programs for all ages connecting people with food production and strengthening the links between urban and rural communities.
 - Our organisation builds resilience across the landscape through on-ground works aimed at improving biodiversity and providing a better environment for all.
